Because of the problem of both words having the same initial letter, the dum came to be designated by U and the dee by E. The dum carried a one-third charge, and the dee carried none. Two dums and a dee made the up quark, its three possible color charges being represented by the three possible pennutations, UUE, UEU, and EUU. Similarly two dees and a dum yielded the down antiquark in its three possible color as UEE, EUE, and EEU; in the same way two "antidums" and an "antidee" gave the up antiquark; and two antidees and an antidum, the down quark. Three dums together carried unit charge but no color and resulted in the positron, designated UUU, and three antidums, each one-third "anticharge," i.e., negative, made up the normal electron, UUU. Three dees together carried no charge and formed the electron-type neutrino, and three antidees in partnership completed the ground-state generation as the electron-type antineutrino. It followed that "antitweedles" didn't necessarily give an antiparticle, and tweedles didn't always make a particle. Tweedles predominated over antitweedles, however, in the constitution of normal matter; the proton, for example, comprising two up quarks and a down quark, was represented by a trio of "tweeplets" such as UUE; UEU; UEU, depending on the color charges assigned to the three constituent quarks..right. "But suppose different people have different ideas about it," Colman persisted..One of the figures was a bearded, dark-haired man whom Colman recognized as Leon, sitting alongside a brown skinned woman identified by the caption at the bottom of the picture simply as

Thelma. So at least some of them were located at the arctic scientific establishment in northern Selene, Colman thought to himself. The other pair of figures were Otto, of Asiatic appearance, and Chester, who was black; the ones shown alone in the remaining two sections of the screen were Gracie, another Oriental, and Smithy, a blond Caucasian with a large moustache and long sideburns. From their ages they were all evidently Founder. Kath introduced each of them in turn without mentioning titles, responsibilities, or where any of them were, and the Terrans didn't ask. "It's the master," Bernard said. "He's got overwrite privileges too. I just watched him try it." "Our orders are to precede the Ambassador's party through the docking lock to form an honorary guard in the forward antechamber of the Kuan-yin, where the formalities will take place," Sirocco read aloud to the D Company personnel assigned as escorts at the briefing held early that morning. "Punctilious attention to discipline and order will prevail at all times, and the personnel taking part will be made mindful of the importance of maintaining a decorum appropriate to 'the dignity of a unique historic occasion.' That means no ventriloquized comments to relieve the boredom, Swyley, and the best parade ground turnout you ever managed, all of you. 'Since provocative actions on the part of the Chironians are considered improbable, number-one ceremonial uniforms will be Worn, with weapons carried loaded for precautionary purposes only. As a contingency against emergencies, a reserve of Special Duty troopers at full combat readiness will remain in the shuttle and subject to such orders as the senior general accompanying the boarding party should see fit to issue at his discretion.'" Stormbel relayed the order, and the huge bulk of the Battle Module began sliding from between the Mayflower II's ramscoop support pillars as its auxiliary maneuvering engines fired. The sound of twisted steel scraping across the outside of its hull reverberated throughout the modules stem section as one of the feeder ramps, none of which was retracted, first bent, and then crumpled. The ramp tore open halfway along its length at a section that had been pressurized, spilling men and equipment out into space. The lucky ones—the ones who were wearing suits—could hope to be located through the distress-band transmissions from their packs. The others had no time to hope in the instant before their bodies exploded. "I bet he did," Marie declared. "You're sweet."
